

Health, Safety, Environmental & Dangerous goods policy statement

Dangerous goods are liquid or solid substances and articles containing them, that have been tested and assessed against internationally agreed criteria - a process called classification - and found to be potentially dangerous (hazardous) when carried. Dangerous goods are assigned to different Classes depending on their predominant hazard.

Glass Systems Group final products of insulated sealed units contain no properties or articles containing dangerous substances.

All imports of Chemical or mixtures including any substances classified as dangerous or hazardous for production processes are all documented and listed as part of UK/EU legislation -Registration, Evaluation, Authorisation & restriction of CHemicals (REACH)
